

Liquidity Coverage Ratio: June 30, 2022.

The Bank adheres to RBI guidelines on Liquidity Coverage Ratio, Liquidity Risk Monitoring Tools and the LCR Disclosure Standards pursuant to the Basel III Framework on Liquidity Standards that are applicable to banks in India with effect from January 1, 2015. Liquidity Coverage Ratio (LCR) promotes short-term resilience of banks to potential liquidity disruptions by ensuring that they have sufficient High Quality Liquid Assets (HQLAs) to survive an acute stress scenario lasting for 30 days. LCR is computed on a daily basis from 1st January 2017 and in accordance with regulatory prescriptions, the LCR disclosures contain data on simple average of daily observations for the days in each quarter. Bank has computed the LCR of the IFSC Banking Unit at GIFT City on a standalone basis as per the extant guidelines. Bank has not computed LCR separately for any foreign currency since the aggregate liabilities denominated in any foreign currency doesn't amount to 5% or more of the Bank's total liabilities. Bank has consistently maintained LCR above the prescribed regulatory minimum.

On an average, 96% of the HQLA maintained by the Bank comprises of Level 1 assets which is the most liquid asset category. Cash in hand, excess CRR and SLR, G-Sec within mandatory SLR requirement permitted by RBI under Marginal Standing Facility (MSF) and Facility to Avail Liquidity for Liquidity Coverage Ratio (FALLCR) as per RBI guidelines from time to time, constitutes Level 1 HQLA. Level 2 assets maintained by the Bank comprises of (a) marketable securities representing claims on or claims guaranteed by sovereigns, Public Sector Entities (PSEs) or multilateral development banks that are assigned a 20% risk weight under the Basel III Standardized Approach for credit risk and that are not issued by a bank/financial institution/NBFC or any of its affiliated entities and (b) Corporate bonds and commercial papers, not issued by a bank/financial institution/NBFC or any of its affiliated entities, which have been rated AA- or above by an Eligible Credit Rating Agency. HQLA is also well diversified across various instruments and liquid asset types and shall provide the Bank with adequate and timely liquidity.

Bank has a well-diversified funding portfolio. Retail deposits, considered as stable deposits from a liquidity perspective is the major funding source of the Bank, indicating lower dependence of the Bank on wholesale funds.

The liquidity risk management in the Bank is guided by the ALM Policy. Asset Liability Management Committee (ALCO) is the executive level committee responsible for ALM process in the Bank. Bank's liquidity management is actively done by the Treasury department as per the directions of ALCO. Integrated Risk Management Department actively monitors the liquidity position of the Bank and appraises ALCO on a continuous basis to initiate appropriate actions to ensure that the liquidity position is well within the Risk Appetite set by the Board of Directors.

Net Stable Funding Ratio: June 30, 2022.

Net stable funding ratio (NSFR) is introduced by Basel Committee on Banking Supervision (BCBS) in order to ensure that banks maintain a stable funding profile in relation to the composition of their assets, liabilities and off-balance sheet activities. NSFR limits overreliance on short-term wholesale funding and promotes funding their activities with longer term stable sources indicating funding stability.

NSFR is defined as the amount of available stable funding relative to the amount of required stable funding. "Available stable funding" is defined as the portion of capital and liabilities expected to be reliable over the time horizon considered by the NSFR, which extends to one year. The amount of stable funding required ("Required stable funding") of the Bank is a function of the liquidity characteristics and residual maturities of the various assets as well as the off-balance sheet (OBS) exposures of the Bank.

As per the RBI Guideline, Bank is required to maintain a minimum NSFR of 100% on an ongoing basis effective from October 1, 2021.

The Available Stable funding primarily consists of Regulatory capital, Deposits from Retail Customers, Small business entities, Non-Financial and financial corporates and Borrowings, whereas the Required Stable Funding comprises of mainly Advances and investments.

The NSFR of the Bank as on 30th June 2022 is at 138.92% as against the regulatory minimum of 100% and the table given below sets out the details of NSFR of the Bank as on the aforesaid date.
