****Illustration on Interest Free (grace) period**

The interest free credit period could range up to 48 days subject to the scheme applicable on the credit card and the submission of claims by the merchant.

For a statement for the period from Jan 15th 2023 to Feb 14nd 2023 the payment due date would be Mar 2nd, 2023.

Assuming that you have paid your Total Amount Due of the previous month statement by the payment due date, the grace period would be:

1. For a purchase dated Jan 16th, 2023, the interest free grace period is from Jan 16, 2023 to Mar 2nd, 2023, i.e. 46 days.
2. For a purchase dated Feb 14th, 2023, the interest free grace period is from Feb 14th 2023 to Mar 2nd, 2023, i.e. 17 days.

Thus, the grace period can vary depending upon the date of purchase. This period will be free of interest only if all previous dues are paid in full and there is no unpaid balance carried over from previous months. However, if the Total Amount Due is not paid by the payment due date, then there will be no interest free period. For cash advances, interest is charged from the date of the transaction until the date of payment.

Illustration of Finance/Interest Charges

i. Interest Charges are paid at a monthly percentage rate on all transactions from the date of transaction in the event of the Card member choosing not to pay his balance in full, and on all cash advances taken by the Card member, till they are paid back. Interest charges, if payable, are debited to the Card member's account till the outstanding on the card is paid in full.

ii. When the customer carries forward any outstanding amount or availed Cash Advance, a finance charge calculated by average Daily Balance Method will apply to balances carried forward and to fresh billings.

iii. If a card holder avails the revolving credit facility of the Federal Bank Credit Card and hence chooses to pay an amount less than the total amount due reflected in the monthly billing statement, the entire outstanding amount would attract interest charges and all new transactions will also attract interest Charges till such time as the previous outstanding amounts are repaid in full. Revolving credit is a type of credit that does not have a fixed number of payments, in contrast to installment credit.

iv. The following illustration will indicate the method of calculating interest charges: In the table given below, it has been assumed that the Total Amount Due of the previous month statement has been paid by the payment due date and there is no outstanding amount. The statement date is the 15th of every month. Given these assumptions, interest will be calculated as below:

Example1:

Particular	Amount (Rs.)
Purchase on Jan 14, 2023	10,000
Total Amount Due on statement dated Jan 15, 2023	10,000
Minimum Amount Due on statement dated Jan 15, 2023 (5%)	500
Payment due date - Feb 2, 2023	
Purchase on Feb 10, 2023	4,000
Payment received on Feb 13, 2023	7,500
Interest Calculation @ 3.49% (Total interest charged in the statement dated 15th Feb)	
a)Interest on Rs. 10,000 for 30 days (from Jan 14 to Feb 12)	349
b)Interest on Rs. 2500 for 3 days (from Feb 13 to Feb 15)	8.72

c)Interest on Rs. 4000 for 6 days (from Feb 10 to Feb 15)	27.92
d)Late Payment Fee	500
e)GST will be applicable on interest charges and Late Payment Fees	159.41
f)Total Charges Payable on 15th Feb (a+b+c+d+e)	1045.05
Total Amount Payable on due date Mar 3 2023 (Principal amount of Rs. 6500 + Total charges payable(f))	7,545.05

Billing Statement: Your billing statement will be generated every month (either on 15th or 20th). It will contain a break-up of all purchases, repayments, fees, interest charges, refunds and taxes. In case the card was not used in a month, the statement will mention there were no spends in that month.

Mode of sending statement: The billing statement will be shared over email, on a monthly basis to you, and will also be available on your Scapia app or through such other means as may be decided by Federal Bank.

*****Minimum Amount Due:** Minimum Amount Due (MAD) is calculated as 5% of Total Amount Due (subject to minimum of Rs. 200/-), new EMI debits for the month or any previously unpaid EMI debits + GST + Fee. In the event the Card Member deposits part of the Total Payment Due or the MAD (not less than the MAD under any circumstance), the balance outstanding amount payable shall be carried forward to subsequent Statements. This amount will attract interest Charges until the date of full and final payment. Please note that paying only the Minimum Amount Due every month will result in the repayment stretching over a long period with consequent interest payment on Card Member's outstanding balance.

Method of payment:

You can pay the outstanding dues from the Scapia App itself, through the following modes: a) Debit Card b) Netbanking c) UPI
