Disaster Relief-Covid 19 projects-FY2021-2022.

Covid 19 pandemic had emerged as a global health crisis creating enormous medical and financial burden on dozens of economies all over the world. India, being the second most populous country, is one of the worst affected economy in the world. The intermittent lockdowns across States in 2021-22 also resulted in loss of jobs/income of people mainly in the unorganized sections of society.

This pandemic also witnessed medical fraternity reeling under lack of even basic infrastructure. As a responsible organization committed to the welfare of society, we have provided major share of our mandatory allocation in Covid related relief measures in FY2021-22 also, which includes, livelihood enhancement projects, improving health care facilities, vaccination awareness programs, promoting vaccination in selected districts, providing free vaccines to disadvantaged sections of society through various organizations, distributing groceries to the underprivileged etc.

Brief details of various projects are given below:

(a)Sanjeevani –A Shot of Life & Vaccination of 5 Districts Pan India-in association with NW18 & United Way of Mumbai

Sanjeevani –A Shot of Life

On 16 January 2021 India started its national vaccination program against the SARS-CoV-2 virus which has caused the COVID-19 pandemic. The drive prioritized healthcare and frontline workers, and then those over the age of 60, and then those over the age of 45 and suffering from certain comorbidities.

However considering the vast population in the country, the number of people who actually got the vaccines are very low and the major reason for low vaccine penetration remains hesitancy and to some extent myths associated with the disease itself and vaccines.

As part of our CSR activities, Bank joined hands with E18 group for educating the masses on the benefit of vaccination through Sanjeevani –A Shot of Life Program.

The project, one of the largest vaccine awareness drive in India, was started on 7th April 2021. The event was held across a period of nine months commencing from April 2021 to December 2021.

The project has been implemented by E18 group, a digital media company having reach over pan India and broadcasting in 11 regional languages.

The project has two-pronged approach of mass mobilization through reaching audience via digital media while also simultaneously running “Sanjeevani Ki Gadi” for on ground mobilization to encourage vaccination coverage.

The impact of the project has surpassed the expected coverage and beneficiary number. Both Central & Local Govt representatives applauded the project contributing to national cause.

Gift A Vaccine- (Promotion of Vaccination in 5 Districts) in association with United Way of Mumbai.

IN 2021-22, COVID-19 continued to impact the country and test the limits of our healthcare infrastructure. With two deadly waves under our belts, India is now keeping an eye on the news of new mutations in an effort to prevent a third wave. The need to follow COVID-19 appropriate behaviour (CAB) was as crucial in 2021-2022 as it was in March 2020. For this, the Sanjeevani campaign supported by Federal Bank has been carrying out awareness activities across 1000 villages in 5 selected districts. This initiative covers mass awareness, facilitation of vaccinations and strengthening of vaccination centres.

The project was implemented for a period of 10 months across 1000 villages in 5 districts- Amritsar, Indore, Nashik, Guntur & Dakshin Kannada. Program started on 24th May 2021 and completed in March 2022.

The project has been well received by District Health Offices and other relevant authorities. The immense support and guidance received from health authorities and other key stakeholders in villages such as Gram Panchayat, ASHA workers, Anganwadi Workers, Medical Officers and ANMs in PHCs etc. has been a key achievement of this project across all districts.

b) Covid Warden- Livelihood Enhancement Project.

From the month of September 2021, the Bank associated with M/s SB Global Educational Resources Pvt Ltd, the implementing partner of Federal Skill Academies for creating a cadre of **skilled Trainee Covid Wardens** for effective crowd management and Covid protocol implementation. These Covid Wardens are assigned for a period of 4 months from September 2021.

Unemployed youth/those lost their jobs due to the pandemic belonging to the age group 20-35 including women from different locations covering all districts of Kerala were selected through a well-defined process. The selected candidates were groomed through a 3 day on line training program on effective communication, people management and covid protocol.

The trainees on completion of the skilling program were placed as “Trainee COVID Wardens” for covid protocol enforcement at various offices/ Govt establishments. The project was continued till March 2022 due to hike in covid cases in January 2022.

Through the program, we were able to provide livelihood support to 571 persons. This is well appreciated by the public and district administrations of Alleppey, Trivandrum, Malappuram & Palakkad.

(c)Support to Aluva District Hospital-Conversion of 100 bed block in Aluva District Hospital into Covid Care Facility/ICUs.

In the second wave of the pandemic, the active cases in Kerala increased drastically and death toll also increased. The district medical system ran out of ICU beds and needed more to continue effective treatment. Even though the maximum cases were home quarantined, due to the severity of this wave, more and more people needed to be treated at the clinical level.

The already strained health system needed to be supported and we provided support for setting up an ICU unit for COVID Care, at Aluva District Hospital, at the request of National Health Mission.

The project is well appreciated by the Govt.

(d) Apart from the above, the following various initiatives were undertaken by us:
